## Dear Valued Shareholders,

I deem it to be an exclusive privilege for me to welcome all of you to the 19th Annual General Meeting of Generation Next Fashions Limited. With great pleasure, we have already submit-ted before you the operational activities and the Annual Financial Statements for the year ending 30 June 2023 duly approved by the Board of Directors.

<u>Business Climate</u>: The fallout of global pandemic Covid-19 is still affecting the world economy. This has been further affected by the on-going Russia-Ukraine war. On top of these, the Israil-Palestine war has come as a big blow to the international business/trade. The worst affected sector has been the apparels sector, resulting the closure of many factories and trading houses. Many are also on the brink of shutting down. Prices of raw materials both in international and domestic markets have gone up to a great extent. Similar is the case with the overhead costs and utility bills. Increase of wages and labour unrest are other challenges facing the garments business in our country: Despite all these impediments, we are seeing lights at the end of the tunnel. If we can continue at the present pace with same bit of cost cutting here and there and if we can increase the productivity, we shall be able to achieve better result in the days to come.

Our Plans: In order to sustain in the competitive market, our future plans are:

- Select more efficient workforce to ensure more productivity
- · Go for product diversification and develop value added products
- Adopt product efficient technology
- · Continue cost cutting and wastage reduction

<u>Conclusion</u>: On behalf of the Board of Directors, I express our deepest appreciation and gratefulness to all of our valued customers for their confidence in our products. I also like convey our sincere thanks and gratitude to all the employees for their tireless efforts, to the suppliers for their quality goods and to the esteemed shareholders for their continuous support and trust on us. I firmly believe that, the same support from all stakeholders will continue in the coming years.

May Allah bless us.

Thanking you all,

Chairman of the Board

#### Dear Shareholders,

With great pleasure, I take the opportunity to welcome all of you to the 19th Annual General Meeting of Generation Next Fashions Limited. By this time, you must have received the Annual Report containing the audited accounts and for the year ending June 30, 2023. I am highly pleased with the report of this year.

Despite global recession, our company has earned a handful amount of net profit. You may agree with me that, following the, Russia-Ukraine war and Israel-Palestine has come as a big blow to the global economy. When all other suppliers of ready-made garment are struggling to survive, we have made some profit. This has been possible by the relentless efforts of our workers and management staffs coupled with timely deci-sions by our top management.

Going forward, we are taking necessary steps to produce more and more value added products and going for product diversity to maximize our profits. Ready-made garments sector is now facing various challenges of enhanced compliance standards from customers. There are new regulations as regards the building and fire safety, weekly working hours, payment of wages & benefits, social dialogue, environmental & chemical issues and corporate social responsibilities. To overcome these challenges and to meet the enhanced costs, the management is striving to make operations more efficient.

Let me use this platform to convey my gratefulness to each one of you for your continued support and cooperation. We are whole heartedly working for sustainable growth in the days to come. I would also take this opportunity to express my thanks and gratitude to our valued share-holders & to Bangladesh Securities and Exchange Commission, Dhaka Stock Exchange, Chittagong Stock Exchange, Central Depository Bangladesh Limited and all regulatory bodies for the cooperation and support extended to us.

Thanking you all.

Rajiv Sethi

Managing Director

### Dear Shareholders

On behalf of the Board of Directors of Generation Next Fashions Limited, I have the pleasure to welcome you all to the 19th Annual General Meeting of the company. We are pleased to submit before you the operational activities and Audited Financial Statements for the year ended June 30, 2023 as approved by the Board of Directors.

# Background

The textile sector is at the forefront of the Bangladesh industrial arena. More than 80% of the nation's export earning is derived from this sector. Generation Next Fashions Limited, as a vertically integrated fabric and apparel manufacturing company, is looking to tap into the rising demand by manufacturing products in a more efficient manner. We are now looking to enhance value addition to retain maximum profits. Our marketing strategy is to look for better customers in the days ahead. We have all the latest technologies and machineries to manufacture garments for the top retailers of the world

# Business Activities and Contribution to National Economy

The company has earned Tk. 5.96 billion in foreign exchange in the period from July 01, 2022 to June 30, 2023 as against Tk. 4.12 billion in the period from July 01, 2021 to June 30, 2022. This is a significant achievement. We are a 100% export oriented business firm and our revenues are generated in foreign currency. We also purchase our raw materials in US dollars and we also sell our products in US dollars. The fact that, we generated revenues through exports earnings, is a testament to the company's contribution to the national economy.

# Industry Outlook and Possible Future Developments in the Industry

The major challenges for the period from July 01, 2023 to June 30, 2024 will be inflation, high cost of funding, massive disaster due to Ukraine-Russia war, Israel-Palestine war and decrease in export order. Despite these challenges, Generation Next Fashions Limited will continue to look into its potentials and development options with its business strategy. Corporate image, professionalism and quality product growth with aggressive marketing will be our priority.

### Risks and Concerns

# 1.Exchange Rate Risk

Exchange rate risk occurs due to changes in exchange rates. As the company imports equipment from abroad and also earns revenue in foreign currency, unfavorable volatility or currency fluctuations may affect the profitability of the company. If exchange rate is increased against local currency, opportunity will be created for generating more profit.

# **Management Perception**

The exchange rate of US Dollar against BDT in the country has traditionally witnessed upward trends, which makes ample opportunity for increasing revenue from exports. On the other hand, appreciation of local currency against US Dollar will reduce the import cost of the company. Therefore, change in exchange rate in both ways offsets the profitability of GNFL.

# 2.Industry Risks

Industry risk refers to the risk of increased competition from foreign and domestic sources leading to lower prices, revenues, profit margins, market share etc. which could

have an adverse impact on the business, financial condition and results of operation.

## **Management Perception**

The company continuously carries out research and development (R&D) to keep pace with the customers' choices and fashions. The industry has successfully coped with the post MFA (Multi Fiber Agreement) competitive situation. The force, which is helping the sector in its strong existence, is emergence of the backward linkage industry. Backward linkage industries are supporting manufacturers in minimizing lead time and cost of production.

### 3. Market Risks

Market risk refers to the risk of adverse market conditions affecting the sales and profitability of the company. Mostly, the risk arises from falling demand for the product or service due to Ukraine and Russia war which would harm the performance of the company. On the other hand, strong marketing and brand management would help the company increase their customer base.

# **Management Perception**

The company has set its focus only on the export market. The management is trying to sell through direct contacts with the existing customers in selected regions by understanding their needs. The company also has established a relationship with potential buyers across the world and expects to find market for its capacity despite competition prevailing in the sector. However, the company successfully sourced new potential buyer in the world market.

# 4. Technology Related Risks Potential

Technology always plays a vital role for each and every type of business. Better technology can increase productivity and reduce costs of production. Firms are exposed to technology risks when there are better technologies available in the market than the one used by the company which may cause technological obsolescence and negative operational efficiency.

# **Management Perception**

The company is aware of technological changes and has adopted new state of the art technology according to its needs. Furthermore, routine and proper maintenance of equipment carried out by the company ensures longer service life for the existing equipment and facilities.

# 5. Potential or Existing Government Regulations

The Company operates under the Company's Act 1994 and other related regulations, Income Tax Ordinance 1984, Income Tax Rules 1984, Income Tax Act 2023, Customs Act 1969 and Value Added Tax (VAT) Act 1991, Value Added Tax (VAT) Rules 2012 Any abrupt change of the policies made by the regulatory authorities may adversely affect the business of the company.

# Management Perception:

Unless any adverse policies are made, which may significantly affect the industry as a whole; the business of the company will not be affected. Government emphasizes on the growth of Textile Industry to boost the export of textile products. Yet the promoters and the sponsors have to convince the policy makers for adopting favorable terms and conditions, which will eventually help the textile manufacturers of Bangladesh to compete with the low cost locations in the global arena.

# 6. Changes in Global Policies

The performance of the company may be affected due to unavoidable situation arising from Ukraine and Russia war, Israel-Palestine war and environment changes worldwide. These may also bring changes to world economy as a whole.

# Management Perception:

To reduce the risk the company has customers from various countries of the world. The management of the company is always concerned about the prevailing and upcoming changes in the global and national policy and shall take corrective actions as required in the days to come.

# Internal Control System

The company has an internal control system with the size, scale and complexity of its operations. The scope and authority of the Internal Audit function is defined in the Internal Audit Charter. To maintain its objectively and independence, the Internal Audit function report to the Board.

The internal Audit Department monitors and evaluates the efficacy and adequacy of internal control systems in the Company, its compliance with

operating systems, accounting procedures and policies at all sector of the Company. Based on the report of internal audit function, process owners undertake corrective action in their respective areas and thereby strengthen the controls. Significant audit observations and corrective actions thereon are presented to the Board.

# **Minority Shareholders Protection**

The board is and shall be committed to respect the rights of the minority shareholders to voting, right to information, dividends and appraisal of any alteration in Memorandum and Articles.

# Going Concern

The Directors consider that the Company has adequate resources to remain in operation for the foreseeable future and has therefore continued to adopt the going concern basis preparing the financial statements.

# Discussion on Production Cost of Goods, Gross Profit Margin and Net Profit Margin:

Production cost of goods sold has increased compared to last period, the gross profit margin and net profit have decreased.

# Discussion on Continuity of any Extra-Ordinary Gain or Loss.

There is no extra-ordinary gain or loss in the financial statements under report except Tk. (840,380+1,169,573) = Tk. 2,009,953/- income from other comprehensive & interest from bank deposit.

# **Related Party Transactions**

For the financial year ended 30th June, 2023 the company did not enter into any financial transactions that require separate disclosure except the remuneration paid to directors.

#### Taxation:

The expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit and loss except to the extent that it relates to a business combination or items recognized directly in equity.

#### **Deferred Tax:**

The provision for deferred tax has been made based on the difference between accounting depreciation and tax depreciation of property, plant and equipment calculated by the tax authority in the. The rate of deferred tax has been applied as per Income Tax Ordinance, 1984.

# Utilization of Proceeds from Public Issues, Rights Issues and/or Through any Others Instruments.

The raised fund has been fully utilized by June 30, 2018 and has been reported to regulatory authority concerned.

An Explanation if the Financial Results Deteriorate After the Company goes for Initial Public Offering (IPO), Repeat Public Offering (RPO), Rights Offer, Direct, Listing, etc.

No deterioration of financial result has been observed during the year.

# Significant Variance Between Quarterly Financial Performance and Annual Financial Statements

No significant variations have occurred between quarterly and final financial results of the company during the period under report.

# Remuneration to Directors Excluding Independent Directors.

| Closing inventory of Tk. 2,952,109,941/- represents 54.13% of current assets and 29.73% of total assets. The closing inventory figure have significant impact in determining the cost of goods sold.  Inventories are usually carried in financial statements at the lower of cost and net realizable value. Since frequent changes in customer demand is unavoidable in manufacturing industry and a large quantity of raw material is held. As a result, there is risk that the carrying value of inventory exceeds net realizable value. | Our audit procedures were designed to challenge the adequacy of the company's provisions against inventory includes:  -Attain yearend inventory count conductedby management to observe correctness of counting procedure.  -Obtain closing inventory report along with valuation of inventory to ensure requirement for IAS-2.  -Review current year purchase ledger & store records to verify receipt of goods.                                                                                                                                                                                                                                                                                                                                                                         |

#### **Other Information**

Management is responsible for the other information. The other information comprises all of the information in the Annual report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### 3.29. Risk Factors and Management's Perceptions about the Risks

The Company is operating in an industry involving both external and internal risk factors having direct as well as indirect effects on its business, result of its operations and financial condition, as follows:

### (a) Interest rate risks:

Interest rate is concerned with borrowed funds of short term & long-term maturity. Interest rate risk is the risk that the company faces due to unfavorable movements in the interest rates. Volatility in money market & increased demand for loans/investment funds raise the rate of interest. A change in the government's policy also tends to increase the interest rate. High rate of interest enhances the cost of fund of a company. Such rises in interest rates however mostly affect companies having floating rate loans.

### Management perception:

The Company maintains a reasonable debt/equity ratio; and accordingly, adverse impact of interest rate fluctuation will not adversely affect the Company's performance as the Company emphasizes on equity base financing to reduce the dependency on borrowing. Therefore, management perceives that the fluctuation of interest rate on borrowing would have little impact upon the performance of the Company.

### (b) Exchange rate risks:

If exchange rate increases against local currency opportunity is created for getting more revenue against sale in local currency. On the other hand, if exchange rate goes down, margin is squeezed in local currency.

### Management perception:

The products of the company are sold in foreign currency and payment for raw materials are made mostly in foreign currency. Therefore, volatility of exchange rate will have little impact on profitability of the Company.

### (c) Industry risks:

Industry risks refers to the risk of increased competition from foreign and domestic sources leading to lower prices, revenues, profit margin, and market share which could have an adverse impact on the business, financial condition and result of operation.

### **Management perception:**

The Company has established its brand name in the market with its quality products, range of products and customer services. Therefore, industry risks will be limited.

### (d) Market and technology-related risks:

### (i) Market risks:

Market risk refers to the risk of adverse market conditions affecting the sales and profitability of the Company. Mostly, the risk arises from falling demand for the product or service which would harm the performance of the company. One the other hand, strong marketing and brand management would help the company to increase their customer base.

### **Management perception:**

With the exception of this reporting period due Russia-Ukraine war Market for the Company's products is growing at an exponential rate with growth of urbanization and incremental income level of consumers along with their preference to convenience. Therefore, market risks will be minimal.

### (ii) Technology-related Risks:

Technology always plays a vital role for the existence of any industrial concern, ensuring better service to the customers and minimizing the cost in various aspects. Any invention of new and more cost involving technology may cause technological obsolescence and negative operational efficiency. Any serious defects in the plant and machinery may affect production and profitability calling for additional investment for replacement.

### Management perception:

The Company utilizes its Market Research Team that is continuously working for in-depth understanding of the customer needs and preferences and accordingly, arranging its technology.

### (e) Potential or existing government regulations risks:

The Company operates under Companies Act, 1994, Income Tax Act, 2023; VAT and Supplementary Duties Act, 2012 and VAT and Supplementary Duties Rules, 2016. Any abrupt changes of the polices made by the regulatory authorities may affect its activities.

### **Management perception:**

Unless any policy change that may negatively and materially affect the industry as a whole, the business of the Company is expected not to be affected significantly. It is highly unlikely that the Government will initiate any fiscal measure that may have adverse effect on the growth of the industry.

### (f) Potential changes in global or national policies:

The performance of the Company may be affected by the political and economical instability, both in Bangladesh and worldwide. Any instance of political turmoil and disturbance in the country may adversely affect the economy in general.

### **Management perception:**

The Company can prosper in a situation of political stability and a congenial business environment. Political turmoil and disturbance are bad for the economy and so also for this sector. The Company is always aware of all types of turmoil's and if the smooth supply of material is hampered or faces any kind of disruptions, it will supply it in future and try to keep its operation smooth.

### (g) Operational Risks:

Operational risks refer to the possibility of plant shut down due to disruption in supply of gas, technological failure, natural calamities, human errors and other unforeseen events. Such incidences may lead to non operation, large overhauling costs and financial losses.

### Management perception:

Bangladesh Government is meeting this challenge by opening the energy generation to private sector; and also making massive investment, which is expected to ensure availability of energy for uninterrupted operation. The Company perceives that allocation of its resources properly with contingency approaches can reduce this risk factor to great extent.

### (h) Input Cost Risks:

Input cost risk is the risk of a business when procuring materials or commodities in high global demand. Increasing demand and supply shortages create volatility in these commodity values; and therefore, the timing, quantity and price of purchase must be closely planned.

### **Management perception:**

Management of the Company would hedge their exposure to input price volatility by adjusting its selling price.

### 3.30 Earnings per Share & Diluted Earnings per Share:

### Earnings per Share:

This has been calculated in compliance with the requirement of IAS-33: Earnings per share by dividing the net earnings attributable to the shareholders by the weighted average number of ordinary shares outstanding during the year.

### **Basic Earnings per share (Numerator / Denominator)**

Earnings (Numerator)

Diluted earnings per share (diluted EPS) calculate a company's earnings per share if all convertible securities were converted.

Diluted Earning per Share = Net Income/Weighted number of Share

The receivable of the Company decreased due to decrease of current sales of the company for different products. The other reason for decrease of receivable due to some realization from last year holds up consignment by our Major customer PRIMARK. The customer did not cancel any order fully but postponed some orders due to pandemic situation. The company now started shipment for those orders gradually as per customers guideline.
